

Weissach Scheduled Service Plan

Our prepaid Service Scheduled Maintenance Plan:

We believe that the after sales ownership experience should be simple and hassle free. It's our job to ensure that we look after your Porsche like it is our own and with the finest care. Weissach Extended Care allows you to manage your factory recommended scheduled maintenance services through the convenience of prepayment. Not only will you lock-in the cost of your Scheduled Maintenance up front, you will rest easy knowing these checks are no charge for the term you choose.

How does it work?

In establishing scheduled maintenance requirements for Porsche vehicles, our service team here determined the checks and service operations necessary to keep your Porsche running in optimal condition. Our plan covers each of these critical items for periods from 2 years/30,000 kilometers to 3 years/45,000 kilometers. All you need to do is arrange an appointment with our service team at the appropriate time or mileage, and know that "There's no charge for your scheduled maintenance today" when you return to pick-up your vehicle.

Choosing the right plan is important and we can advise you on this. Some owners keep their Porsche vehicles many years but drive a limited distance, while others travel thousands of kilometers each year, but perhaps have a limited lease period.

The "**Weissach Scheduled Service Plan**" covers the regularly Scheduled Maintenance visits as specified in your vehicle's published Maintenance booklet, for the time and/or mileage period purchased. All scheduled maintenance covered by the plan will be performed at our Service Centre by our Factory-trained technicians using Genuine Porsche parts. The chart below shows a sample of items replaced or inspected under the plan including, but not limited to:

- Engine oil and filter change
- Engine air filter replacement
- Cabin air pollen filter replacement
- Spark plug replacement
- Brake fluid replacement
- Brake pad, disc, and hose inspection
- Steering gear and axle inspection
- Radiator and air inlet inspection
- Body and sunroof drain cleaning and inspection
- Coolant and coolant hose inspection
- Windshield wiper and washer inspection
- Tire condition and pressure inspection
- Headlights, horn, and other electrical system inspection
- Battery condition inspection

And unlike other plans, we will change your light bulbs, wiper blades and fluid top ups as required.

Please consult your Maintenance Booklet for a complete list of operations performed and required service intervals for your specific vehicle.

- Items not specified in the Maintenance Booklet, or that result from wear and tear, are not covered. Examples of excluded items include brake pads and rotors, and tires. Please consult your plan agreement
- The coverage goes with the vehicle, so even if you trade or sell your Porsche before the plan expiration, coverage continues for the remainder of the term selected.
- The "Weissach scheduled service plan" may not be canceled. No refunds will be offered for early termination of a vehicle lease, or for unused portions of the plan.
